PaperCut Guide for users

You have now got a account in PaperCut.

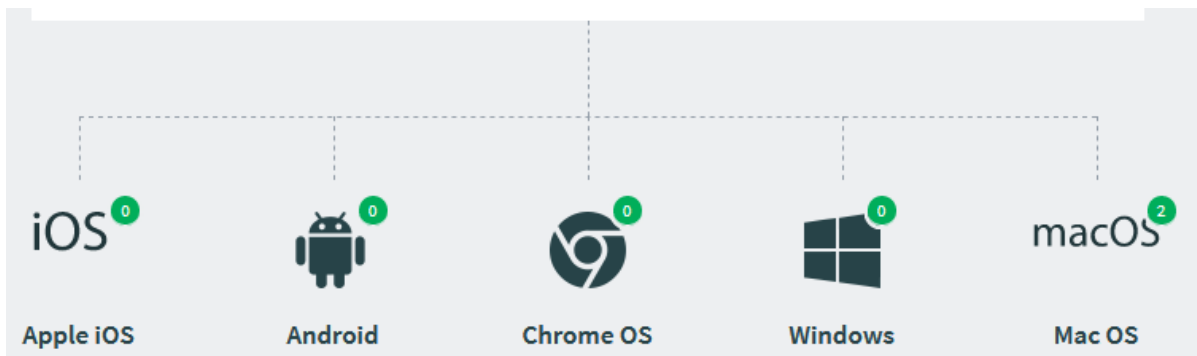

From here you can see who is logged in upper right corner.

And you could also install the printer from here. Click on "Install Printer" and follow the instructions.

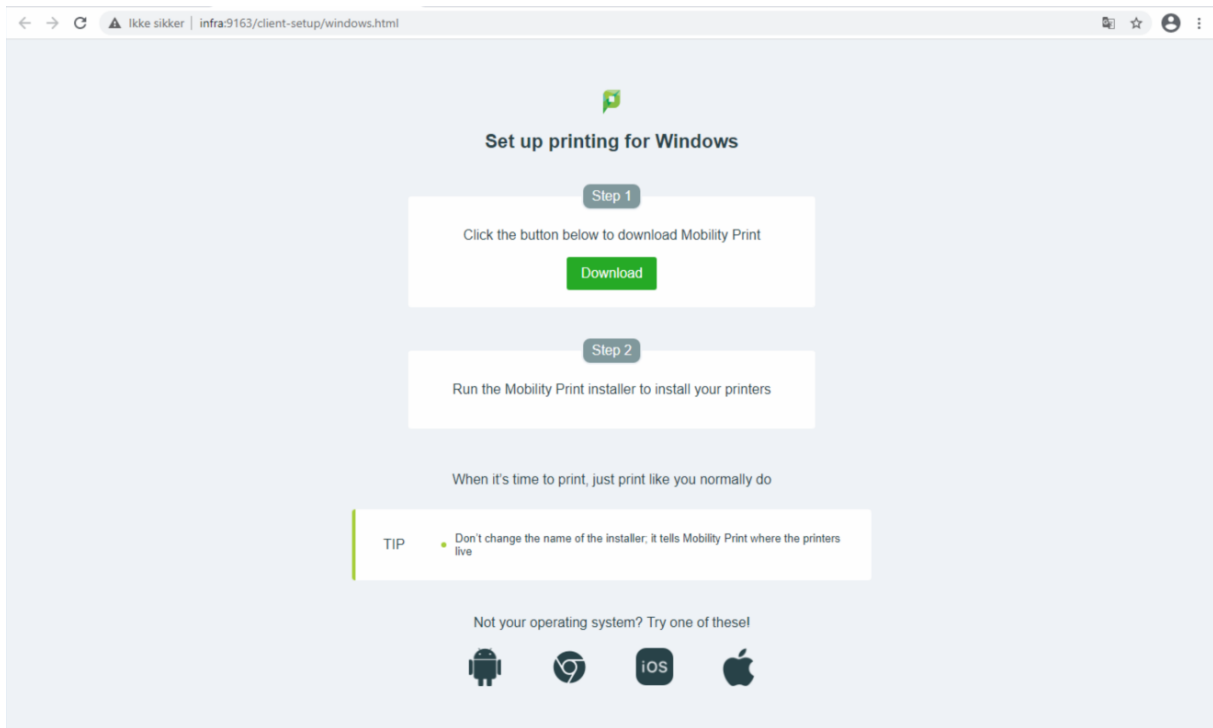

Supporterede platforme

PaperCut Guide for users

Depending what platform, you are sitting on you will get the correct info what to do.

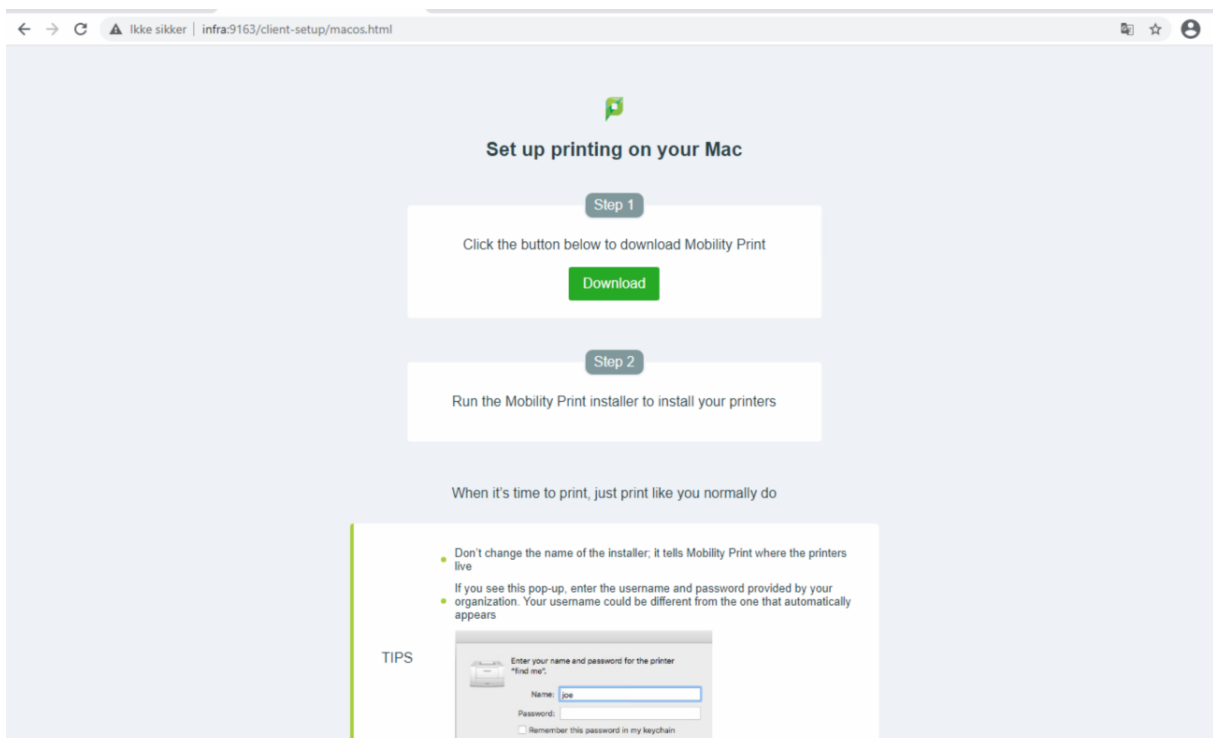

Windows Users will get this page.

The screenshot shows a web browser window with the address bar displaying "infra:9163/client-setup/windows.html". The page content is as follows:

- Header: "Set up printing for Windows" with a green speech bubble icon.
- Step 1: "Click the button below to download Mobility Print" with a green "Download" button.
- Step 2: "Run the Mobility Print installer to install your printers".
- Text: "When it's time to print, just print like you normally do".
- TIP section: "Don't change the name of the installer; it tells Mobility Print where the printers live".
- Footer: "Not your operating system? Try one of these!" with icons for Android, Linux, iOS, and Apple.

For mac users.

The screenshot shows a web browser window with the address bar displaying "infra:9163/client-setup/macOS.html". The page content is as follows:

- Header: "Set up printing on your Mac" with a green speech bubble icon.
- Step 1: "Click the button below to download Mobility Print" with a green "Download" button.
- Step 2: "Run the Mobility Print installer to install your printers".
- Text: "When it's time to print, just print like you normally do".
- TIPS section: "Don't change the name of the installer; it tells Mobility Print where the printers live" and "If you see this pop-up, enter the username and password provided by your organization. Your username could be different from the one that automatically appears".
- Image: A screenshot of a Mac dialog box titled "Enter your name and password for the printer 'find me'." with fields for "Name" (containing "joe") and "Password", and a checkbox for "Remember this password in my keychain".

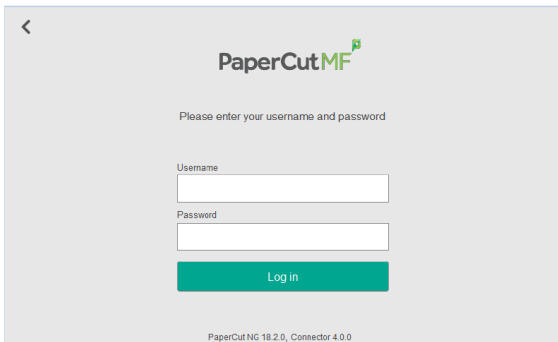

PaperCut Guide for users

Depending witch machine you are going to you will see different gui.
